

The diagram illustrates a Collective Operating System (OS) architecture. At the top, two 3D boxes represent 'COLLECTIVE PROGRAM' instances, one in red and one in orange. These are connected by dashed lines to a central blue box labeled 'COLLECTIVE OPERATING SYSTEM'. Below this central box, four green boxes, each labeled 'OS', are connected to the central box by dashed lines. Each 'OS' box is further connected to a specific device icon: a smartphone, a desktop monitor, a smartwatch, and a server rack. The entire structure is enclosed within a dashed blue 3D frame.
